

## ***Curriculum vitae***

### **PERSONAL INFORMATION**

Name                **Verica Milojkovic**

Address            Daniciceva 7 Nis

Telephone        **+381064/20 23 218**

E-mail             [vericamilojkovic@gmail.com](mailto:vericamilojkovic@gmail.com)

Nationality        Serbian

Date of birth      05 July 1953

E-mail: [vericamilojkovic@gmail.com](mailto:vericamilojkovic@gmail.com) [www.apiterapija.rs](http://www.apiterapija.rs)

### **Education and professional experience:**

Graduated in 1980 at Medical Faculty in Nis

Specialist of General Medicine from 1993

2001 -course in Informatics

2002 -completed a course in Emergency Medicine in Nis

2007 -completed a course on Apitherapy

2008- completed a course on Phytotherapy

I have been practicing Apitherapy since 1990. I started giving propolis to my younger child because of the health problems and that was the time when propolis entered my home and we are using it for almost 26 years. I started Apitherapy practice with my patients at the year 1997.

I have been writing for many magazines. First of them was Matica-official Serbian beekeeping association magazine, Power of Nature, then magazines: Herbs and health, Blic, Healthy Life, Third Eye, magazine-MAMA Blic, etc.

I have been giving lectures and presentations all around Serbia and I visited almost every large city in my home country. I also presented my work in neighboring countries Sofia (Bulgaria), Plav, Podgorica (Montenegro), Skoplje, Kumanovo (F.Y.R.O. Macedonia). Romania, Slovenia, Germany...

My first scientific papers: Third Congress of the SPOS (Serbian Beekeeping Society)  
- "Effect of the royal jelly on high levels of cholesterol and triglycerides".

## **ORGANISATIONAL SKILLS AND COMPETENCES**

In the year 2007 with the generous assistance of Mr. Milenko Radosavović and experts of the Ministry of Health of Bulgaria I organized a seminar in Apitherapy in Nis, where 12 doctors received an official diploma for practicing Apitherapy. I formed the first Serbian Apitherapy Society at the 7<sup>th</sup> of September 2007 and now I am in my second mandate.

According to program that I sent to the Ministry of Health of Serbia, Apitherapy was recognized as a complementary branch of medicine. With approval of the Health Council of Serbia in terms of continuous education of doctors I will give a lecture at my institution regarding theme: "Propolis application in medicine as an additional remedy".

I am cheerful, optimistic, communicative, persistent, and creative person.  
I love reading books, writing scientific papers, visit theaters, and travel.

## **WORK EXPERIENCE**

1981-2013 Institute of Occupational Health (32)

2012- Medica Life Center – Belgrade (Serbia)

## **Current position:**
